CSE 115: Practice session: Week 1

1. Write a program to draw THREE swimming ducks in a row like below:

```
    _      _      _
  _(.)<  _(.)>  _(.)=
  \__)   \__)   \__)
```

2. Print the following chart. Make sure your output matches exactly with the format.

```
    NUMBER          SQUARE          CUBE
   *********        *******        *******
      1                1               1
      2                4               8
      3                9               27
      4               16               64
      5               25              125
```

3. Print the following patterns (Use * symbol)

```
* * * * * * * *
* * * *   * * * *
* * *       * * *
* *           * *
*               *
* *           * *
* * *       * * *
* * * *   * * * *
* * * * * * * *
```

4. Write a program to print a HUT like below:

```
   //////|\\\\\
  .............
  |           |
  | [] ‾‾ [] |
  |__|_|__|
```
